### 4. Managing Product Delivery (MP)

- Objective: Ensure that project deliverables are created and delivered according to plan.
- Activities: Assign work packages, monitor progress, and quality control.

## 5. Managing Stage Boundaries (SB)

- Objective: Plan the next stage and report on the current stage's performance.
- Activities: Review stage progress, update project plans, and seek approval for the next stage.

## 6. Closing a Project (CP)

- Objective: Formalize project closure.
- Activities: Confirm project deliverables, hand over products, and evaluate project performance.

## 7. Directing a Project (DP)

- Objective: Provide overall direction and decision-making.
- Activities: Authorize initiation, authorize stages, and approve project closure.

## PRINCE2® Themes: The Building Blocks

PRINCE2® also emphasizes seven themes that must be addressed throughout the project:

- **Business Case:** Justify the project's value and viability.
- **Organization:** Define roles, responsibilities, and stakeholder engagement.
- **Quality:** Ensure products meet requirements and standards.
- **Plans:** Develop detailed plans aligned with the project's stages.
- **Risk:** Identify, assess, and manage risks proactively.
